

11TH INTERNATIONAL CONFERENCE ON THE HEALTH EFFECTS OF INCORPORATED RADIONUCLIDES

OCTOBER 13-17, 2013
CLAREMONT HOTEL, BERKELEY, CA

We are pleased to invite you to participate in the **11th International Conference on the Health Effects of Incorporated Radionuclides (HEIR 2013)**. The conference will be held at the Claremont Hotel in Berkeley, California, USA, from Sunday, October 13th, to Thursday, October 17th, 2013. Continuing a series of outstanding previous meetings, this conference will be a great opportunity to present and discuss topics related to the toxicity of radionuclides in man. A variety of fields will be represented (chemistry, microbiology, medicine, physiology, toxicology, radiation biology, etc.) by experts from industry, government, and academia, aiming at an exciting multidisciplinary encounter.

We look forward to welcoming you in Berkeley in October 2013.

Conference Topics

- Epidemiology and biological effects of internally deposited radionuclides
- Radionuclide biokinetics
- Decorporation of internally deposited radionuclides
- Environmental decontamination
- Regulatory control and dose monitoring
- Recommendations for treatment of radionuclide internal exposure
- Development of medical countermeasures against radionuclide contamination
- Lessons learned and identified needs from Fukushima 2011
- Molecular biology of radionuclide contamination
- Biodosimetry of internal contamination
- Medical use of radionuclides

Important Dates

» **Registration is currently open!**

May 15, 2013 – Abstract submission deadline (oral & poster)
June 3, 2013 – Acceptance notification
June 15, 2013 – Early registration deadline
October 10, 2013 – Submission of manuscripts deadline
